Public reporting burden for this collection of information is estimated to average 20 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0522). Do not return the completed form to this address.

This one-time survey asks about your experiences and how you have felt at different times in your life. Some of the questions are about the past week or month and others focus on your entire life. Please pay careful attention to the time-frame for each question.

Your continued participation in the Sister Study is completely voluntary and greatly appreciated. Some questions may be personal or sensitive. **All of your answers will be kept confidential.** You will not be identified in any way. However, if you are not comfortable answering a question, just skip it and go on to the next one.

Please mark the category that best describes your response. There are no right or wrong answers. Try not to let your response to one statement influence your responses to other statements. Answer according to your own feelings, rather than how you think “most people” would answer. Don’t take too long thinking over your replies; your immediate reaction will probably be more accurate than a long thought out response.
